

Evacuation Chair Training

Course syllabus

Evacuation chair/equipment training consists of both manual and casualty handling elements.

The course is conducted over one day if manual handling training has not been received by participants in the previous two years.

If training has been received (Certificates must be available), the training is conducted over a half day.

Course syllabus includes:

- 09:00-09:15 Course introduction and registration
- 09:15-12:30 Manual handling course including coffee break
- 12:30-13:00 Casualty handling including transfer of evacuee from their wheel-chair if applicable to the evacuation chair
- 13:00-14:00 Lunch break
- 14:00-15:30 Practical application and demonstration on the set up, securing of evacuee and use of the equipment including full participation of students
- 15:30-15:45 Coffee break
- 15:45-16:45 Student practice and assessment
- 16:45-17:00 Q&A course close and issue of certificates

As the course is very physical students should be fit for the task and wear loose comfortable clothing during the training.
